Global Head of Trading, Aviva Investors

There's a need for automation in the industry - with the objective to separate redundant workflows and free up our capacity for the more important things where we can utilise our talents - and it's amazing to partner with the vendors through The Finance Hive as we use them as a conduit

Head of Currency Trading, Mellon Capital Management

Great forum and dialogue. Learning some very important information to help drive Blackrock's global investment operations industry engagement and strategy!

Director, BlackRock

The openness of peers/competitors to share information at these Hive events is unrivalled
