

Increase conversions with **convenient** and **accurate delivery** choices

Add convenient shipping choices with accurate delivery dates to your website, personalised for each customer, using a lightweight API.

Give shoppers the shipping choices they want

Show accurate delivery dates before purchase

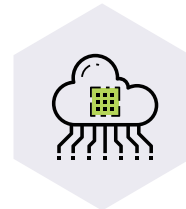

Avoid showing services you cannot fulfil

Serve markets the right local delivery options

Quickly add or remove options on your site

Remove tech complexity & maintenance

Add convenient **ways to ship**

More Home Delivery

Choose from over 5500 home delivery services to add to your checkout, including: same/next day, nominated day, time slots, Sunday and more.

Convenient Collection

Add convenient local pick-up options, by connecting to over 350,000 collection points worldwide, no-one has a bigger PUDO library than we do.

Ship to Store

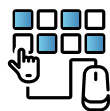

Drive footfall to your stores by adding click and collect to your website's delivery choices, even use your delivery fleet to help reduce your shipping costs.

“

Additional delivery options have driven our website sales by 37.9% and increased footfall into stores. 31% of our e-commerce customers now use Click & Collect.”

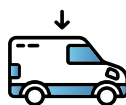

New Look

Make accurate delivery promises

Display the Right Choices

Use the shopper's delivery address and product details to query carrier and warehouse availability for each order, for a personalised customer experience.

Select the Best Carriers

Use clever automation and rules to always select the right shipping provider for your business, so adding and switching carriers is easy, making scaling effortless.

Give Accurate Dates

Display accurate delivery dates so customers know when their order will arrive before they purchase, removing buyer uncertainty.

Successfully driving conversions for...

Remove tech headaches

Remove IT maintenance

Remove the need to maintain multiple integrations by accessing nearly 500 major carriers through a single lightweight API.

Easily Control Site Options

Remove the need for live code changes to manage your site's shipping options using our API to instantly add or remove services in seconds, for easier control.

Guarantee performance

Don't be let down by slow and unreliability integrations. We offer unbeatable reliability of 99.99% uptime and a contracted responsive rate of 200ms.
